

Community Service Project
For
Mother Raphaela Abbess
Holy Myrrhbearers Monastery

The monastery located at 144 Bert Washburn Road in Otego is in need of a community service project by one or more of our scout troops. There are a number of hiking trails complete with signs on the 220 acre property that are overgrown from a few years of neglect. The volunteer that used to take care of the trails has since moved to another part of the country.

Due to the time spent on taking care of the animals (sheep, goats, chickens, ducks, cats, dogs and four oxen in training), general farm work and devotion prayer, the nuns are not able to do this kind of work. They would like to see the trails able to be used by anyone in the Otschodela communities.

We hope at least one scout troop will take this on as a community service project to preserve this natural resource that is very generously provided by the monastery.
